

Tibetan Buddhism and Modern Physics: Toward a Union of Love and Knowledge

By Victor Mansfield

Templeton Foundation Press, U.S. Paperback. Book Condition: new. BRAND NEW, Tibetan Buddhism and Modern Physics: Toward a Union of Love and Knowledge, Victor Mansfield, "Tibetan Buddhism and Modern Physics: Toward a Union of Love and Knowledge" addresses the complex issues of dialogue and collaboration between Buddhism and science, revealing connections and differences between the two. While assuming no technical background in Buddhism or physics, this book strongly responds to the Dalai Lama's "heartfelt plea" for genuine collaboration between science and Buddhism. The Dalai Lama has written a foreword to the book and the Office of His Holiness will translate it into both Chinese and Tibetan. In a clear and engaging way, this book shows how the principle of emptiness, the philosophic heart of Tibetan Buddhism, connects intimately to quantum nonlocality and other foundational features of quantum mechanics. Detailed connections between emptiness, modern relativity, and the nature of time are also explored. For Tibetan Buddhists, the profound interconnectedness implied by emptiness demands the practice of universal compassion. Because of the powerful connections between emptiness and modern physics, the book argues that the interconnected worldview of modern physics also encourages universal compassion. Along with these harmonies, the book explores a significant conflict between quantum...
